Excursion Description

4 - Day Discovering Athens Trip

DISCOVERING CLASSICAL & MODERN ATHENS

All study abroad students are invited to join us on an exciting trip to Athens, the capital of Greece. To get a complete picture of what Greece has to offer, this experience is a must! Our local Athens guide will lead the group with day to day activities so they get the most out of the city. Some of the experiences will include a guided tour of the Acropolis Hill & the Acropolis Museum, a walk in downtown Plaka & Monastiraki square, dining & drinking in Greek traditional taverns & bars. In addition, they will be given tips & activities to do on their own in order to fulfill personal pleasures & preferences. It is the perfect bonding opportunity for all students while enjoying one of the oldest cities of the world!

A FEW WORDS ABOUT ATHENS:

Athens is the capital of Greece and one of the most influential cities of the world! Almost all of the modern concepts that make up Western civilization originated in Athens. Philosophy, art, science, math and democracy were all discovered and talked about in this wonderful location we now call Athens! The Acropolis hill, the ancient 'high city' of Athens crowned by marble temples sacred to the city's goddess, Athena, is the most visited site of Greece. Athens now can be enjoyed by many people and is famous for its many diverse options of activities. From high and trendy bars & restaurants, to local Greek cuisine, to sporting activities, to dramatic theaters, musical concerts and many more!
