PROGRAM COSTS: (ESTIMATED) \$3,500 + AIRFARE (EST.\$1,300) + UA TUITION

*\*Prices and travel dates to be confirmed by February 2017.*

# BUMPERS COLLEGE

## INTERNATIONAL PROGRAMS OFFICE

*Navigate your path!*

This program will primarily take place in Ghent, Belgium, a lively city in the center of Western Europe. This program provides a significant on-site learning experience that is not available on the University of Arkansas campus. Students will be exposed to specific environmental sustainability issues and practices from a European perspective by participating in classroom lectures, field and site tours and class projects.

### PURPOSE

### OPPORTUNITY

By participating in an international experience, students gain essential skills needed to be successful in today's global workplace. This program combines lectures from experts and strategic site visits to show how course content is applied in Belgium and Western Europe. Students with international experience have a competitive advantage over their peers when pursuing academic and professional endeavors.
